77 West Jackson Blvd.
Chicago, IL 60604-3590

Dear Brad:

In conversation with our friends in Atlanta, I was informed that ATSDR had sent back to you the data sheets comprising the results of the environmental sampling in Granite City performed in support of the lead exposure study. Since these sheets contain information on the sampling beyond that contained on the data tape used for analysis, we need copies of this information to complete the files on the study participants to assist in future analysis and follow-up. We would be willing to either copy the information at your offices in Chicago or copy them here and return the data to you (assuming you want it back).

Please let me know at your earliest convenience how this can best be handled. Thank you in advance for your attention to this matter.

Sincerely,

Thomas F. Long
Senior Toxicologist
Toxicology Section
